The Earthquake

Theme:

The surah of Earthquake

- When the earth will be shaken with great force and will throw out whatever is within her.
- Man would cry out what has happened to her.
- On that day everyone will see all the deeds they had done on this earth whether small or big, good or evil.

Whatever we do on this earth small or big and good or bad is being recorded by Allah's (ﷻ) invisible recorders and we will be shown our record on the day of the greatest earthquake that is the day of Qiyāmah.

Weight of deeds

The weight of an object is defined as the force of gravity on the object.

Weight of a deed is the resultant effect of two forces in opposite direction i.e one pulls towards Allah (ﷻ) die following Sunnah and the other pulls towards Satan by following one's own desires.

On the day of resurrection man shall see the reality of his heaviest and lightest deeds.
