Surah An-Nas

Protection from Loss of Deen

In Allah's (ﷻ) created world, there are all kinds of forces like the force of good and evil. These two surahs tell us about the evil forces that the man has to face. Evil is anything that brings about harm and fear.

Surah-al-Falaq tells us about the evil arising from outside like the darkness, evil plotting and envier. Our trust in Allah (ﷻ) is the only protection from every kind of fear, danger and evil.

Surah-an-Nas warns us against the secret whispers of evil within our own hearts. This power of inner evil may be satan, or evil suggestions from other man or the evil ideas within man's own heart. This surah teaches us trust in Allah (ﷻ) as our only shield and protection. So long as we put ourselves in Allah's (ﷻ) protection, and trust in Allah (ﷻ), evil cannot really harm us.
