

## سُورَةُ الْاِنْشِقَاقِ

# The Splitting Open

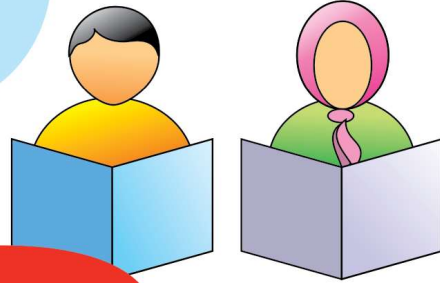

Theme:

### *The surah of Continuous Change*

- Allah (ﷻ) tells us that a day will come when what we see will change like the sky will tear and the earth will be made flat.
- People who are working hard in this world will meet their Lord on that day to get their result.
- Those who had done good deeds will see their result and will come to their family to enjoy.
- Those who are enjoying in this world forgetting Allah (ﷻ) will see their result and will have to go to the burning fire.
- Allah (ﷻ) tells us to look at how the evening changes into night and the moon grows to full. Just like that, everyone and everything will pass through continuous change in stages.
- This continuous change that we see in us and around us is a sign to believe that this life will change to hereafter and so we should believe in this Qur'an.

Working with the surah:

Learn these Ayats:

يَا أَيُّهَا الْإِنْسَانُ إِنَّكَ كَادِحٌ إِلَىٰ رَبِّكَ  
كَدًّا فَامْلِكِيهِ ۝

O man! Surely you are laboring towards your Lord with (great) exertion so you will meet Him.

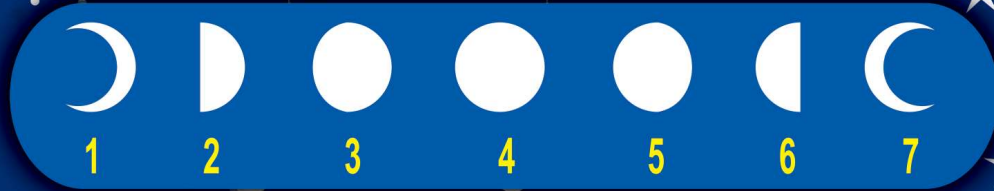

لَتَرْكَبَنَّ طَبَقًا عَنْ طَبَقٍ ۝

You shall surely embark upon (i.e. move on from) state after state.

## PRACTICAL TIPS

- Our life is changing continuously and will finally change to hereafter when we will meet our Lord.
- So whatever we do we should think, what effect it is going to bring in the hereafter for us.

# THE MOON PHASES

The moon is different every night. It is rotating around the earth. Allah (ﷻ) made it to reflect the light of sun at different angles and so it appears to grow from a thin crescent to full moon and then shrink back to crescent every month. In the following activity arrange the different phases of moon in a sequence of growth from crescent to full moon.

# Evaluation

Answer the following questions

Look around yourself and list three things that are changing with time. Also write the changes through which they pass .

Write the changes through which a newborn baby passes in his life .
